Term Life Answers[®] can be the solution your clients need for their life insurance protection, through affordable, simple coverage for a specific amount of time.

Best of all, the premium payments will never increase during the level term period of the policy.

Term Life Answers

This simple life insurance policy offers affordable, lasting protection. This means that if the insured should die unexpectedly, their loved ones would be protected financially. They would receive an income tax-free death benefit¹ which may be used for income replacement, final expenses, their children's college education or for any other purpose.

This can be a great fit for clients who:

- Require coverage for a certain period of time, such as until their children are grown
- Want to ensure their family maintains their lifestyle if the unthinkable happens
- Need to make sure long-term debts (such as mortgage, car loan or credit card) are paid off
- Are looking for affordable life insurance protection as they enter their prime earning years
- Are business owners looking for affordable business planning solutions

¹ Death benefit proceeds from a life insurance policy are generally not included in the gross income of the taxpayer/beneficiary (Internal Revenue Code Section 101(a)(1)). There are certain exceptions to this general rule including policies that were transferred for valuable consideration (IRC § 101(a)(2)). This information should not be construed as tax or legal advice. Consult with your tax or legal professional for details and guidelines specific to your situation.
